Art Unit: 2645

The following is an examiner's statement of reasons for allowance: The prior art fails to show applicant's 1st and 2nd gain control signals, whereby the 1st gain control signal is used to adjust the gain and then using that gain adjustment to change the impedance of the circuit. No obvious combination of references found would teach one of ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H Smith whose telephone number is 308-2488. The examiner can normally be reached on M-F.
